Description of Each Category

ICD-10 Code: ICD-10 provides a diagnosis code to describe the medical issues affecting the patient. A document by state can be found in the vendor portal.

CPT Code: set of medical codes used by health professional to describe the procedures and services they perform.

Subjective (S): This section includes the patient's reported symptoms, feelings, and experiences. It captures the patient's perspective on their condition.

Objective (O): This part contains measurable data obtained through physical examinations, lab results, and other diagnostic tests. It includes observable facts and findings.

Assessment (A): In this section, the healthcare provider analyzes the subjective and objective data to make a diagnosis or identify the patient's problems.

Plan (P): This final component outlines the treatment plan, including any interventions, medications, referrals, or follow-up appointments.
